DECISION NOTIFICATION FORM DEVELOPMENT ACT 1993

TO:	Martin and Jessica Carter C/- Pyper Leaker Surveying Services Pty 65 Goodwood Road WAYVILLE SA 5034
------------	--

DEVELOPMENT APPLICATION NUMBER: 100/2019/539
(SCAP Reference: 100/D055/19)
DATED: 29/03/2019
REGISTERED ON: 29/03/2019

LOCATION OF PROPOSED DEVELOPMENT
14 Baker Avenue MORPHETTVILLE 5043 LOT: 141 DP: 3483 CT: 5397/075

DESCRIPTION OF PROPOSED DEVELOPMENT
Residential land division (Torrens title-1 into 2 allotments) as well as the construction of a pair of single-storey semi-detached dwellings

In respect of this proposed development you are informed that:

NATURE OF DECISION	DECISION	DATE OF DECISION	RESERVED MATTERS	NUMBER OF CONDITIONS
Development Plan Consent	Granted	27/05/2019	-	10
Land Division Consent	Granted	27/05/2019	-	3
Building Rules Consent	STILL REQUIRED			
DEVELOPMENT APPROVAL	STILL REQUIRED			

Conditions imposed on this approval and the reasons for imposing those conditions are set out in the attached sheet(s). Important information that may affect this consent can also be found under 'NOTES' on the last page of this Decision Notice.

Signature of Administration Officer:

A handwritten signature in black ink, appearing to read "K. Sheffield".

Planning Officer: Kristen Sheffield
Delegates of City of Marion

Date: 28 May, 2019

DEVELOPMENT PLAN CONSENT

GRANTED

Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

RESERVED MATTER(S)

nil

Conditions of Consent:

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

- (1) Except where minor amendments may be required by other relevant Acts, or by conditions imposed by this application, the development shall be undertaken in strict accordance with the details and plans submitted in Development Application No.100/539/2019 (SCAP Reference: 100/D055/19) except where varied by the following conditions of consent.
- (2) Stormwater from the structure approved herein shall be collected and directed into a detention tank (or tanks) which are sized and installed in accordance with the specifications contained in Council's information guide titled "[Stormwater Detention / Retention](#)", to the reasonable satisfaction of the Council.
- (3) All stormwater from buildings and paved areas shall be disposed of in accordance with the approved plans and details prior to the occupation of the premises to the reasonable satisfaction of the Council.
- (4) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (5) Stormwater must be disposed of in such a manner that does not flow or discharge onto land of adjoining owners, lie against any building or create insanitary conditions.

- (6) All car parking areas, driveways and vehicle manoeuvring areas must be constructed, sealed and drained in accordance with recognised engineering practices prior to the occupation of the premises or the use of the development herein approved and maintained in a good condition at all times.
- (7) All areas nominated as landscaping or garden areas on the approved plans shall be planted and maintained with a suitable mix and density of native trees, shrubs and groundcovers prior to the occupation of the premises to the reasonable satisfaction of the Council.
- (8) Party/common wall(s) associated with the development proposed to be built on the land shall be accurately identified on the plan of division prior to the Council advising the Development Assessment Commission that it has no objection to the issue of a certificate pursuant to Section 51 of the Development Act.
- (9) All buildings and all deleterious materials such as concrete slabs, footings, retaining walls, irrigation, water or sewer pipes and other rubbish shall be cleared from the subject land, prior to the Council advising the Development Assessment Commission that it has no objection to the issue of a certificate pursuant to Section 51 of the Development Act.
- (10) The final survey plan shall be available to the Council, prior to the Council advising the Development Assessment Commission that it has no objection to the issue of a certificate pursuant to Section 51 of the Development Act.

LAND DIVISION CONSENT

GRANTED

Conditions of Consent

- (1) The financial requirements of SA Water shall be met for the provision of water supply and sewerage services.
Subject to our new process, on receipt of the developer details and site specifications an investigation will be carried out to determine if the connections to your development will be standard or non standard fees.
On approval of the application, it is the developers/owners responsibility to ensure all internal pipework (water and wastewater) that crosses the allotment boundaries has been severed or redirected at the developers/owners cost to ensure that the pipework relating to each allotment is contained within its boundaries.
- (2) Payment of \$7253 into the Planning and Development Fund (1 allotment(s) @ \$7253/allotment).

Payment may be made by credit card via the internet at www.edala.sa.gov.au or by phone (7109 7018), by cheque payable to the Department of Planning, Transport and Infrastructure and marked "Not Negotiable" and sent to GPO Box 1815, Adelaide 5001 or in person, at Level 5, 50 Flinders Street, Adelaide.

- (3) A final plan complying with the requirements for plans as set out in the Manual of Survey Practice Volume 1 (Plan Presentation and Guidelines) issued by the Registrar General to be lodged with the State Commission Assessment Panel for Land Division Certificate purposes.

Note: The SA Water Corporation will, in due course, correspond directly with the applicant/agent regarding this land division proposal.

BUILDING RULES CONSENT

STILL REQUIRED

NOTES:

General:

- (1) The applicant is reminded to contact the Council when all of the Council's conditions have been complied with and accordingly, the Council will advise the Development Assessment Commission that it has no objection to the issuance of a certificate pursuant to Section 51 of the Development Act.
- (2) This approval does not relate to the removal of, or to any tree damaging activity to, any regulated or significant tree (as defined under the Development Act 1993) that may be located on the subject site or adjacent land. If any tree-damaging activity is anticipated, a separate Development Application is required to be lodged prior to any such damage occurring.

Tree-damaging activity means the killing, destruction or removal of a tree, the severing of branches, limbs, stems or trunk of a tree, ringbarking, topping or lopping of a tree or other substantial damage (including damage to root systems of trees).

For your information, a regulated tree is any tree that has a trunk circumference of 2.0m or more - or, in the case of trees with multiple trunks, that have trunks with a total trunk circumference of 2.0m or more and have an average circumference of 625mm or more - measured at a point 1m above natural ground level. A significant tree is any tree that has a trunk circumference of 3.0m or more - or, in the case of trees with multiple trunks, that have trunks with a total circumference of 3.0m or more and have an average circumference of 625mm or more - measured at a point 1m above natural ground level.

Should regulated or significant tree(s) exist on the subject site, care must be taken during demolition/construction of the proposed buildings to ensure no damage is done to that/those tree(s) (including their root systems) unless otherwise approved by Council. For this reason, a protective barrier should be erected at the dripline of the tree, and that barrier should be maintained for the duration of the demolition/construction. It is also recommended that you seek the advice of a qualified Arborist.

- (3) The applicant is reminded that Development Approval from the Council is required for any retaining wall over one metre in height, any masonry fence over one metre in height, any non-masonry fence (e.g. colorbond, wood paling, brush etc.) over 2.1 metres in height, and any retaining wall with a fence on top with a total height over 2.1 metres in height (measured from the lower of the two adjacent ground levels).
- (4) Demolition of the existing dwelling and/or other structures on the land cannot occur until a separate application has been lodged, assessed by and approved by the Council.
- (5) Noise from devices and/or activities on the subject site should not impair or impinge on the amenity of neighbours at any time. The Environment Protection Authority has restrictions relating to the control of noise in the urban environment. Further information is available by phoning the Environment Protection Authority on 8204 2004.
- (6) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (7) Any existing driveway crossovers that become redundant as a result of a development must be reinstated to match the existing kerb profile along the road frontage of the property.
- (8) Any portion of Council's infrastructure damaged as a result of work undertaken on the allotment or associated with the allotment must be repaired/reinstated to Council's satisfaction at the developer's expense.
- (9) Council encourages the installation and use of rainwater tanks to support domestic water needs.

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Advisory Note:

1. Any variation/amendment to the plans and documentation granted Development Plan Consent will require further approval from the Council. If the amendments are deemed to be minor in nature, in the opinion of the Council, they may be accepted as part of the current application pursuant to Regulation 47A of the Development Regulations 2008. Alternatively, if in the opinion of the Council, the variation(s) are not considered to be minor in nature, a new variation application must be lodged with the Council for assessment against the relevant Marion Council Development Plan.

Please note, minor variations cannot be simply incorporated within the Building Rules Consent documents; they must be applied for in writing. Any discrepancies between the plans granted Development Plan Consent and Building Rules Consent documents may prevent Development Approval being issued, unless the amendments have previously been authorised by the Council.

2. Developers are responsible for providing telecommunications infrastructure in their developments. To provide this infrastructure, you need to contract a carrier to install telecommunications infrastructure in your new development.

Developers can choose any carrier to service their development. If they don't choose another carrier:

- nbn is the Infrastructure Provider of Last Resort for larger developments (100 lots or more), and for all developments in areas where nbn is rolling out.
- Telstra is the Infrastructure Provider of Last Resort for smaller developments (less than 100 lots), until the nbn rolls out in the area.

Developers are asked to apply at least 6 months before the required date of service, to ensure a connection is ready when residents move in.

Approval Timeframes:

- (1) The proposed development must:
- receive full Development Approval within twelve (12) months of receiving Development Plan Consent; and
 - be substantially commenced within twelve (12) months from the date full Development Approval is granted; and
 - an application for Section 51 Clearance is lodged within twelve (12) months of the date of receiving Development Approval
 - Section 51 Clearance is received within three (3) years of the date of receiving Development Approval
 - be completed within three (3) years of full Development Approval being granted, noting that the operative date of any consent or approval is subject to any appeal (where applicable) being finally determined.

Mr M S & Mrs J M Carter
35 Yarmouth Street
SOUTH BRIGHTON SA 5048

IMPORTANT INFORMATION *(Last updated 2/6/05)*

The following matters may influence any consent or approval that has been granted:

- **Other Approvals may be required**

The granting of this consent or approval does not remove the need for the applicant to obtain all other consents that may be required by any other legislation or regulation, encumbrance, land management agreement or similar. It also does not imply that the building will comply with the provisions of the Disability Discrimination Act 1993. The Applicant's attention is particularly drawn to the need to consult electricity suppliers in relation to high voltage power lines and required clearance distances to buildings.

- **Public and Environmental Health**

The Public and Environmental Health Act requires that:

- proper sanitary facilities must be existing and available or be provided to all building sites (i.e. a water flush chemical toilet or toilet connected to sewer or a septic tank);
- an appropriate waste receptacle/enclosure be provided to contain all builders' waste; and
- the site is maintained in a clean condition, free of litter, at all times.

The applicant is advised (and should in turn advise the property owner, builders and all contractors) of their responsibility under the Environment Protection Act 1993 to not harm the environment. Specifically:

- paint, plaster, concrete and brick wastes, and wash waters should not be discharged to the stormwater system or onto land where it is reasonably likely to enter any waters;
- litter should be appropriately stored on site pending removal;
- excavation and site disturbance should be limited, and in particular dust generation should be minimised;
- entry/exit points to the site should be managed to prevent soil being carried off site by vehicles;
- sediment barriers should be used (particularly on sloping sites).

On the spot fines apply for breaches. Further information is available by contacting the EPA on 8204 2000.

- **Works on Council owned land, including footpaths**

The applicant is advised that any works undertaken on Council owned land (including, but not limited to, works relating to crossovers, driveways, footpaths, street trees and stormwater connections) will require the approval of the Council's Infrastructure Department, prior to any works being undertaken. Driveway Access Permit Forms, in particular, must be completed and approved prior to driveway construction occurring. Further information may be obtained by phoning 8375 6600.

Council has requirements for all works that occur in the verge area. In particular, Council requires all redundant driveways to be closed and all new driveways to grade toward the road between the kerb and the front boundary of the property with the level at the front property boundary being between 50mm and 150mm above the top of the kerb, or, as approved by Council.

If damage to kerbs, watertables, footpaths etc is present prior to construction commencing, it is advisable to supply Council with dated photos and measurements of defects; otherwise it will be assumed that all damage was caused during construction. Any damage during construction will be the responsibility of the builder/site owner to remedy. Failure to do so will result in such repairs being carried out by the Council and charged to the builder.

All works on Council owned land required as part of this development are likely to be at the applicant's cost.

Material stockpiles and temporary toilet facilities should all be placed on site and not on the footpath or public roads or reserves. Failure to keep the road reserve clean and suitable for pedestrian and vehicular traffic may result in Council or other agencies taking action under the Local Government Act, the Public and Environmental Health Act, and/or the Environment Protection Act.

P (08) 8375 6600

Administration Centre 245 Sturt Road, Sturt SA 5047

F (08) 8375 6699

Office Hours Monday to Friday — 8:30am to 5:00pm

Postal Address PO Box 21, Oaklands Park SA 5046

www.marion.sa.gov.au

- **Other**

Property owners are responsible for notifying Council of any **change in ownership** and/or any **change of property owner's mailing address**. This notification must be received in writing or by facsimile by Council's Rates Department (fax no: 8375 6888). Failure to do so may result in rates notices not being received and fines being imposed.

Existing vegetation to be retained and/or **planting** to occur **in the vicinity of building works** may alter soil conditions and/or affect buildings. The applicant is therefore urged to seek expert advice from suitably qualified persons before designing footings, undertaking construction, and/or planting any vegetation in the vicinity of any building.

The Council has not surveyed the subject land and has, for the purpose of its assessment, assumed that all dimensions and other details provided by the applicant are accurate. It is recommended that the applicant **employ a licensed surveyor** to carry out an identification survey and peg the true boundaries prior to construction commencing. Any discrepancies identified between the dimensions on the approved drawings and the true survey must be reported to the Council for advice on implications on the proposed development. Where a solid wall is proposed on a boundary, it is necessary for any relevant sections of fencing to be removed. It is advisable to gain permission from the adjoining owner(s) before moving or altering any fencing or before using a neighbour's property for access. Owners/applicants should also be aware of their obligations under the Fences Act to notify neighbours before carrying out fencing work on boundaries.

The EPA Information Brochure "Construction Noise" outlines recommended hours of operation outside which noisy activities should not occur. Further information is available by phoning the Environment Protection Authority on 8204 2000.
